Your regional launch package

Bring travellers, venues and attractions into the African Airways community through your personal AATC referral link. Work from your own country page while corporate administration reconciles applications and verified subscription payments.

10% standard subscription commission. An additional 10% after 100 new paying customers in 30 days gives a retained 20% rate on subsequent subscriptions.

Launch assets: agent account, matching destination artwork, venue invitations and the 52-week Flight-Club magazine campaign.

Commission rules and examples

What earns commission

Consumer, venue / attraction and magazine subscriptions qualify when administration verifies collected payment. Leads, unpaid registrations, referral clicks and applications alone do not earn commission.

Count each customer once, using their first non-refunded verified paid subscription. Use the same stable customer ID for renewals and across subscription categories. A renewal adds eligible revenue, not another new customer.

The standard rate is 10%. At 100 new customers with first payments within the rolling 30-day window, qualification is recorded. The qualifying payment keeps its standard rate. Subsequent payments made after qualification use 20%, and qualification is retained.

An eligible US\$100 subscription produces US\$10 standard or US\$20 after qualification. A proposed US\$30 annual digital magazine subscription produces US\$3 or US\$6. Taxes, shipping and unrelated purchases are excluded from the eligible amount.

Verified refunds remove revenue and commission from the active ledger. Earlier non-refunded payments retain their recorded rate. Payout arrangements and the final Agent Agreement are confirmed before payouts begin.

Flight partner commissions are corporate partner income under a separate contract. The 10% / 20% agent subscription rates do not apply to airfare, ad sales or an unconfirmed capture fee.
